Also - Thomas B. Byrd of Winchester, Va., Mrs. F. Otway Byrd of Richmond Mr. L. Randolph Mason of New York, Mr. Thomas Waring of Charleston, S.C. Miss Frances G. Wallace of Great Neck, N.Y., Mr. C. Shelby Carter of New York City, The Earl of Gosford, Prof. John S. Karling of Lafayette, Ind. Mr. David Tennant Bryan of Richmond, Mr. & Mrs. R. Special thanks to the first three listed; Mr. C. Hill Carter of "Shirley", whose great-uncle made the original tree, and who gave me permission to continue it. Rev. Oscar deWolfe Randolph, whose brother compiled the Carter Tree in book form. Mr. George Selden Wallace, author of "The Carters of Blenheim", who gave permission to use names in his book, which helped to make the Blenheim branch more complete than the Shirley or Westover branches. His book contains much more detailed information on the Blenheim branch, for those interested.

Explanation

Numbering System: The numbering system used here is the same as Mr. Robert I. Randolph used in The Carter Tree Index. As he wrote - "lower case letters are used for numerals above nine, thus: 10 is x, 11 is a, 12 is b, and so on." 5 stands for Robert "King" Carter, 51 -second generation for John Carter of "Shirley", 511-third generation, his first born, and so on down to eleven and twelve generations.

Abbreviations: Most are well known abbreviations - b-born, d-died, m-married, dup.-duplicate, (and symbol) (and explained below), Am.Rev.-American Revolution, C.S.A.-Confederate States America, U.S.A.-United States Army, Sp.-Am.-Spanish American Revolution, WW-I-World War I, WW-II-World War II, *-twin, †-killed in battle, d.s.p.-died without heirs. The few isolated abbreviations are probably known.

Duplication of names: Where a person marries a member of the family, listed elsewhere on the tree, the duplicate number is given as for example - 512x4 Robert E. Lee m. Mary Anne Custis (5a121). In this example and others, 512x41 Robert E. Lee, Jr. m. his distant cousin Juliet Carter (512a431). The complete listing for 512x41 Robert E. Lee, Jr. (dup.5a1211) m. Juliet Carter (512a431) and their daughter - 512x411 Anne Carter Lee (dup. 5a12111) (dup.512a4311). The duplicate numbers keep appearing as long the distant Carter cousins marry. Data for each person appearing more than once is listed through the paternal side.

Place of Residence: "of Petersburg", for example, where the person was known to be from, though not necessarily continuing to live there. (New York City), for example - main or last place of residence. "Chelsea", for example, the name of a home.

Professions: Dr./Prof.-A P.H.D. who is a professor; Dr.-a M.D.; Hon.-Honorable for a member of a state government, the United States Government, or an ambassador. The highest known position is listed for all. Many persons have accomplishments not listed, but inclusion of these would make the book unwieldy. Unrelated professions are listed for example Atty.-Author. Many persons accomplishments are not known to this compiler. Rear Admirals, for example are listed as Admiral.

Spelling: Incorrect spelling of given and sur-names have occurred, unfortunately, for several reasons - cumulative errors from previous works, haste, or unclear writing, or letters have been dropped or added. Any error can be corrected if the person knowing the correct way of spelling a name, will write me, and I will see that it is corrected. Some given names as Anne, for example have become known to their family as Nancy.

Errors and correcting them: Any error of any kind found in this work can be corrected also, if the person finding it will please write me, and it will be corrected.

Accuracy: As far as the members of the family are concerned, the original Carter Tree and the Carter Tree Index, have proved most accurate. Totally unrelated books and data received from individuals confirm this. I have also tried to be as accurate.

Persons not listed: Many branches of the tree are still unknown, especially beginning around 1890 to the present. Members not listed will be included if they will please write me. Also, members listed can help by noticing family names in newspapers or magazines, as well as genealogical books on other families. This has proved successful to some extent.

Continuing the tree: Any data will be appreciated too, such as new names, dates, colleges, professions, war service, place of residence, so that the tree can continue to grow and become more factual and worthwhile. The compiler of this data hopes to make a family tree in chart form, using names only, if their is enough interest.

A family organization: The Carter Family is quite large and lives in most or all of the 50 states, the capital, and abroad. The comprehensive index shows the 41 grandchildren of John and Elizabeth Carter. Descendants of some of the grandchildren could form an organization of sorts to try to list all the descendants. Other objectives could be determined by the members of a particular branch. Considerable data could be added through such efforts. It is also an interesting hobby.

1. Edward Hill, IV died young
2. Elizabeth Hill m. John Carter
3. Martha Hill m. Hugh Gifford of Devonshire, England

* Lady Elizabeth Williams evidently married a Mr. Howe, after the death of Sir Edward Williams. Her maiden name unknown.
** Referring to her granchildren specified - Elizabeth, Henrietta, and Maria Sara. Elizabeth married John Carter as shown. Henrietta or Maria Sara Hill could possibly be the Martha Hill who married Hugh Gifford. The remaining Hill granddaughter is not shown in the records of this family. Lady Williams reference to grandghildren not specified were evidently her Gifford grandchildren.
*** Efforts to identify Sir Edward Williams, through extinct barontages listed in various books, proved fruitless. He is mentioned in Harleian manuscripts. He was from Wales and the owner of North Wales, Virginia.
**** Efforts to identify Hugh Gifford did not turn up anything of note.
